EDUCATION

California State University, Sacramento

Aug 2021 - May 2026

Bachelors of Science in Computer Science and Statistics

Relevant Courses: Intelligent Systems, Database Management Systems, Analyzing and Processing Big Data, Data Visualization, Statistical Computing in R, Data Mining for Business Analytics, Parallel Programming with GPUs, Linear Models and Statistical Learning

KEY SKILLS

Languages: R, Python, SQL, Java, C

Data Analysis: Tableau, Jupyter Notebook, Pandas, Matplotlib, ggplot

Other Libraries: TensorFlow, scikit-learn, NLTK, NumPy, Keras, Vue.js, React.js

Tools: Git, Figma, Canva, Jira, MS Office

EXPERIENCE

Flawless Boxing and Fitness (Youth Afterschool Program Coordinator)

Oct 2024 - Current

Lead youth boxing and fitness programming focused on **structure, safety, mentorship, and personal development.**

- Coordinate **multi-site** afterschool programs supporting youth **ages 8-16.**
- **Design and lead** structured boxing and fitness sessions focused on **skill-building, discipline, and confidence.**
- Manage group instruction, behavioral expectations, and daily program flow in high-energy youth environments.
- **Promote teamwork, emotional regulation, accountability, and goal-setting** through coaching and **mentorship.**
- Maintain **safety standards, program compliance, and positive communication** with youth, families, and staff.

Thermochron Systems LLC (Statistical Consultant)

Feb 2026 - May 2026

Modeled baseline noise in mass spectrometer measurements to support more **accurate experimental signal correction.**

- Modeled **492,000+** instrument measurements across **6 dwell-time settings** and **3 independent lab locations.**
- Built **cleaned long-format datasets** from raw instrument files using **Python.**
- **Quantified** dwell-time **effects** using summary statistics, log-scale diagnostics, and visual analysis.
- **Evaluated** noise **distribution** fit using **KDE, Q-Q plots, and log-scale statistical modeling.**
- Delivered **client-facing** findings and **conclusions** to support baseline correction strategy.

CSUS Department of Biological Sciences (Statistical Consultant)

Feb 2026 - May 2026

Analyzed whether scientific communication training **improved empathy scores** in a pre/post survey study.

- Analyzed matched pre/post survey data from **222 participants** using **R.**
- **Tested intervention effects** using **paired t-tests, Welch's t-tests, change-score models, mixed ANOVA, and ANCOVA.**
- **Interpreted** pre/post improvement **results** and identified no significant Intervention vs. Control effect.
- Created **histograms, Likert plots, alluvial plots, and summary tables** for **client-facing written reports.**
- **Communicated statistical methods, assumptions, limitations, and findings** to a biology research client.

LEADERSHIP

Sacramento State Boxing President

Aug 2025 - May 2026

- Led club operations, team coordination, and initial program development for Sacramento State Boxing.
- Coordinated events, competition travel, fundraising efforts, merchandise sales, and administrative requirements.
- Represented the club in communication with university staff, team members, and external partners.

Sacramento State Boxing Vice President and Treasurer

Jan 2025 - Aug 2025

- Supported club operations, organization, and member engagement during the program's establishment.
- Managed club budget tracking, funding needs, and financial planning for team operations.
