

Austin Meléndez

EDUCATION

California State University, Sacramento

Aug 2021 – May 2026

Bachelors of Science in Computer Science and Statistics

Relevant Courses: Database Management Systems, Software Engineering, Computer Networking Fundamentals, Web Development, Systems Programming in UNIX, Data Structures and Algorithms, Analyzing and Processing Big Data, Data Visualization

TECHNICAL SKILLS

Programming: Python, R, C

Data: Tableau, SQL

Tools: Git, Jira

Software Development: Agile/Scrum, Debugging, Testing, Technical Documentation

INDUSTRY PROJECT EXPERIENCE

Vendia — Pharmaceutical Clinical Trial Management Portal

Jan 2023 – May 2023

- Developed a clinical trial management platform with isolated portals for the FDA, physicians, and pharmaceutical manufacturers.
- Implemented Vendia database ACLs to enforce role-based data access, protect patient information, and support double-blind trial requirements.
- Collaborated on a six-person development team using Agile practices, biweekly sprints, Git, and Jira while implementing stakeholder feedback.

WCP Solutions — Client Relationship Management Platform

Aug 2024 – May 2025

- Developed an internal web application for WCP Solutions' sales teams to manage client relationships and streamline daily workflows.
- Built searchable client tables, geographic mapping, route directions, contact integration, and customer note-tracking functionality.
- Collaborated on an eight-person development team using Agile practices, biweekly sprints, Git, and Jira while implementing stakeholder feedback.
- Tested and refined application functionality based on stakeholder requirements and user workflows by maintaining regular meetings with company stakeholders and faculty advisors.

Thermochron Systems LLC — Mass Spectrometer Baseline Noise Analysis

Feb 2026 – May 2026

- Modeled 492,000+ instrument measurements across 6 dwell-time settings and 3 independent lab locations.
- Built cleaned long-format datasets from raw instrument files using Python.
- Quantified dwell-time effects using summary statistics, log-scale diagnostics, and visual analysis.
- Evaluated noise distribution fit using KDE, Q-Q plots, and log-scale statistical modeling.
- Delivered client-facing findings and conclusions to support baseline correction strategy.

PROFESSIONAL EXPERIENCE

Flawless Boxing and Fitness — Youth Afterschool Program Coordinator

Oct 2024 – Current

- Manage group instruction, behavioral expectations, and daily program flow in high-energy youth environments.
- Manage program procedures, safety requirements, and day-to-day operational issues.
- Lead structured programming focused on skill-building, discipline, and confidence while maintaining organization, accountability, and effective communication with multiple sites across 3 districts.

LEADERSHIP

Sacramento State Boxing Vice President & Treasurer

Jan 2025 – Aug 2025

Sacramento State Boxing President

Aug 2025 – May 2026

- Led club operations, managed finances, organizational planning, and member communication.
